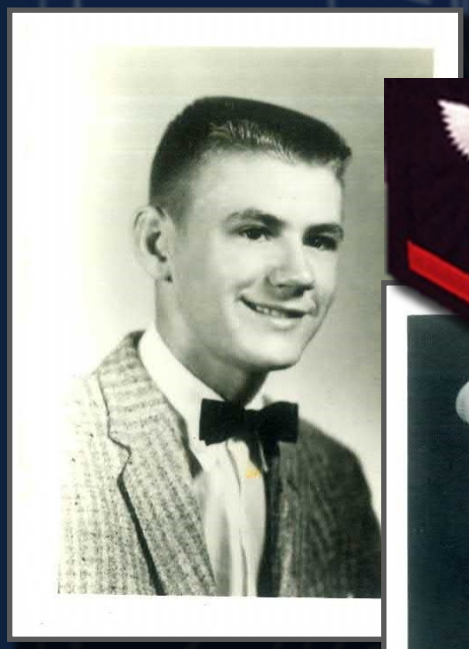
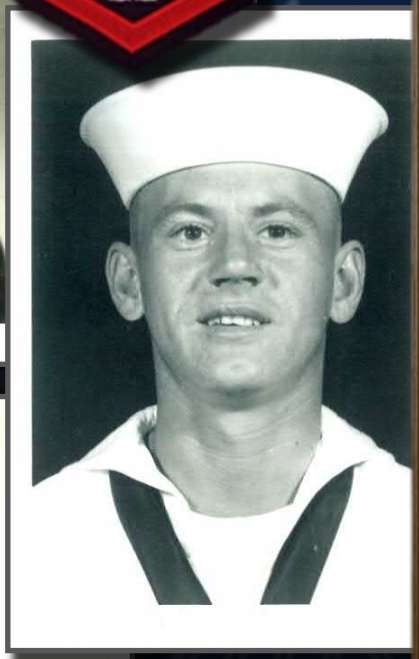
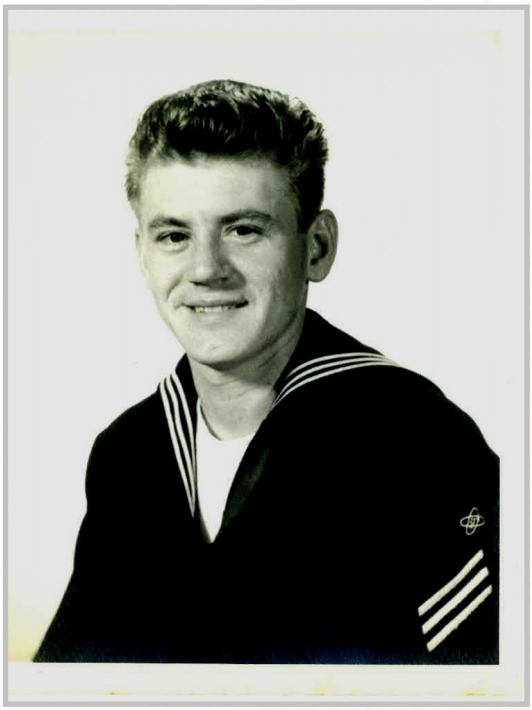
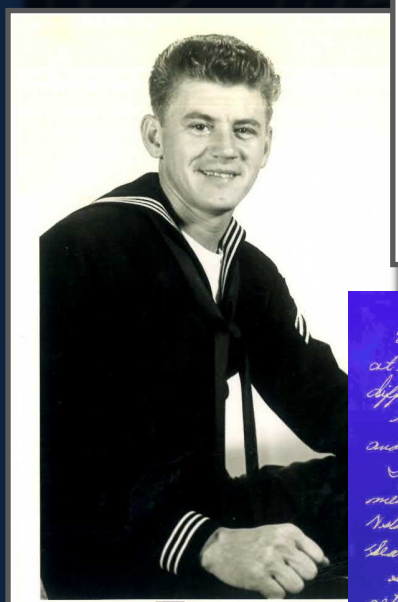
Unit(s) or Ship(s): Basic School; ETA School, Crypto School: India

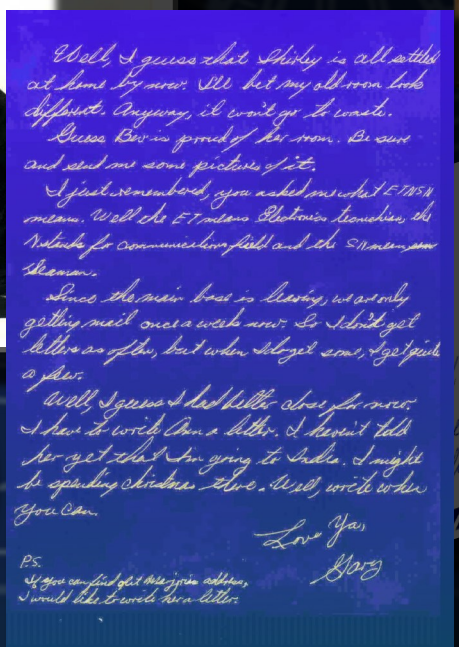
Locations of Service: San Diego, CA; Treasure Island, CA; India; Sidi Yokio; French Morroco











Well, I guess that Shirley is all settled at home by now. Still bet my old room looks different. Anyway, it won't go to waste.

Guess Bev is proud of her room. Be sure and send me some pictures of it.

I just remembered, you asked me what ETN3N means. Well the ET means Electronics Technician, the N stands for communications field and the 3 means 3rd class Seaman.

Since the main boat is leaving, we are only getting mail once a week now. So I don't get letters as often, but when I do get some, I get quite a few.

Well, I guess I had better close for now. I have to write Mom a letter. I haven't told her yet that I'm going to Sadie. I might be spending Christmas there. Well, write when you can.

Love Ya,
Gary

P.S.
If you can find out the address of the orphanage, I would like to write her a letter.
